### **DETAILED ACTION**

This is a Notice of Allowance for application no. 10/053,184 in response to the After Final amendment filed on October 27, 2006 wherein claims 2-8 and 11-14 are presented for examination.

#### ***Allowable Subject Matter***

Claims 2-8, 11-13 and 14 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 2-8 and 11-13 include novel and unobvious features in that the examiner was unable to find in several prior art searches. US Patent 6,081,295 to Adolph et al. teaches a generic MPEG data processing circuit which processes inputted MPEG data to produce outputted MPEG data. Adolph does not teach the specifics of claim 2. Claim 2 requires a V-ES detecting section, a barrel shifter, a VLD, a data replacing section, VLE, a bit packer, a data combining section, a control section, and a memory control section. These features embodied in one circuit as described in the claim teach over the prior art. These features taken with the others in the claims define over the prior art.

Claim 14 includes novel and unobvious features in that the examiner was unable to find in several prior art searches. Specifically, the claim requires a second store that stores data length of said video data written in said primary store and said non-video data in order of said data stream being input. These features taken with the others in the claim define over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erick Rekstad whose telephone number is 571-272-7338. The examiner can normally be reached on 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mehrdad Dastouri can be reached on 571-272-7418. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
